Easy Read Training for Businesses

Wiltshire People 1st offers Easy Read Training to help organisations providing a service to the public, or working with people with learning difficulties or autism, to be more customer friendly and to comply with Equality Legislation.

All training is co-produced by people with learning difficulties and an experienced tutor. It includes an overview of how to make reasonable adjustments for disabled people, and how to make documents into Easy Read using a mix of real life stories and practical exercises.

The commissioning organisation will be given a copy of our 'Making Information Easy to Read' DVD.

If you would like more information about the courses available or a quote for this service, please contact us on **01380 871900** or
